

GRILL SMART WITH MAVERICK

Chefs and BBQ Pitmasters choose Maverick Thermometers for their advanced features, reliability and outstanding accuracy. To ensure your food is cooked to perfection every time, always 'Grill Smart with Maverick'.

DUAL PROBE BLUETOOTH BBQ THERMOMETER

The iChef ET-735 Bluetooth BBQ Thermometer lets you remotely monitor your food and grill from up to 50 metres away. Unlike the competition, iChef ET-735 uses waterproof probes, enabling a super easy clean-up when cooking with sticky sauces.

This App-enabled thermometer is equipped with Bluetooth® technology and connects to your iPhone, iPad, Android or Tablet. The free App includes 15 pre-set temperatures for all types of meat, or you can customise your own temperatures.

More Features:

- Weather resistant transmitter connects to iOS or Android devices.
- Connects up to 4 waterproof, high-heat probes.
- Can be used to measure two foods or one food and one grill temperature.
- App provides alerts when your food is at temperature or when BBQ falls out of range.
- 2 AAA batteries (not included).
- Also available: Extra Probe [PR-014] and Grill Clip [XS-001].

iCHEF ET-735

SINGLE PROBE BLUETOOTH BBQ THERMOMETER

The iChef ET-737 Bluetooth BBQ Thermometer offers a unique spin on indoor and outdoor cooking, allowing you to remotely monitor your food from up to 27 metres away. As an added bonus, the thermometer has a powerful magnetic back that can be attached to any metal surface such as an oven or a barbecue.

Equipped with Bluetooth® technology, the free mobile App comes pre-set with cooking profiles for all types of meat including beef, chicken, pork and more. The iChef ET-737 allows you to chart your food's progress within the App and even share photos of your delicious meals on social media.

More Features:

- Long battery life.
- LCD display with a backlight temperature LED indicator.
- Magnetic mounting.
- Built-in 24 hour count down timer.
- Temperature range: -30°C to 300°C.
- 1 CR2032 battery included.

iCHEF ET-737

DUAL PROBE WIRELESS BBQ THERMOMETER

Our ET-733 Dual Probe Wireless BBQ Thermometer monitors two things at once! You can measure the temperature of your food and the temperature of your grill or smoker at the same time. The ET-733 has a 91 metre range and comes with 15 pre-set cooking profiles or you can customise temperatures to suit your own taste.

More Features:

- Comes with a transmitter, a receiver, two hybrid probes and two handy grill clips.
- Long probe wires rated to 380°C.
- Receiver stores settings even when off.
- Press 'HI' or 'LO' to raise or lower temperature settings .
- Audio alarm alerts when a pre-set temperature is reached.
- Loss of signal alerts if out of range for more than a minute.
- Receiver displays between 0°C to 300°C.
- 4 AAA batteries included.

ET-733

SINGLE PROBE REDICHEK REMOTE THERMOMETER

The ET-72 RediChek ensures you don't have to stand over the grill for the entire cooking process. The transmitter reads the internal temperature of your food with a digital electronic food probe and sends information wirelessly to a receiver up to 30 metres away.

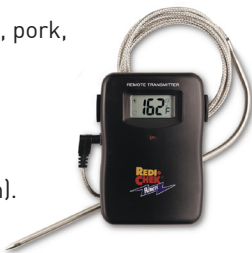

Receiver Features:

- Measures internal food temperature and alerts you when food has reached target internal temperature.
- Dimensions: 11 x 6 x 2.5 cm. Weight: 105 g.
- Select "doneness" or choose your own target temperatures in °C or °F.
- Meat pre-sets include beef, turkey, pork, veal, lamb and chicken.
- 2 AAA batteries included.

Transmitter Features:

- Long stainless steel probe (100 cm).
- Features a display of internal food temperatures.
- Dimensions: 8.9 x 6 x 1.9 cm. Weight: 80 g.
- Signal sent on 433.92 MZ.
- 2 AAA batteries included.

ET-72
